Of the VENEREAL OR SECRET DISEASE.

When a Person has unhappily contracted this *Distemper*, It usually **FIRST** appears by a Redness, Heat, Inflammation, Soreness and Uneasiness of the Part.

In Some, only a little Red Spot, Wheal, or Pimple will appear on the Part like a Flea Bite or Meazle, which growing sore, by Degrees becomes what is usually called a *Shancro*.

Others will have a foul Matter gathering & issuing out from underneath the Fore-skin, which frets the Part, making it Raw and Sore, with Blisters, Pustules and Ulcers on it.

In many Persons, these Symptoms are followed by such a Swelling of the Foreskin, as to become Purst up & immovable, being Red, Sore, Hot and Inflam'd with a *Cording Pain*.

Some Persons at the Beginning of this *Distemper* have a kind of Burning, and Itching, with little Twitchings in the Passage, with a Smarting Pain & Heat in making Water, and frequent *Inclinations* to it, but it is only by a little at a time.

In Others, The *Distemper* appears by a Dripping or Running of Matter, yellowish or greenish, as appears by the Linnen.

In Some Persons, after a little Running, The *Testicles* become Swell'd and Painful; upon which the Running commonly ceases, & causes cold Shiverings, Faintings, Sick Qualms, &c. with Swellings in the Groins, Pains in the Limbs, Reins, &c.

In Some, little thin Bladders full of clear Water will appear on the Part, like little Blisters from a light Burn or Scald.

In Others, a Soreness & Debility (as if from a Cold & Weariness) all over the Limbs, succeed to the aforementioned *Symptoms*, with Dulness of the Spirits, Heavyness, Melancholy, Heat in the Palms of the Hands, Soreness in the Throat, &c.

These more or less are the usual Signs of the Disease, and by a greater or less Degree of which Symptoms, are constituted the Three different Stages or Degrees of it, Thus:

In the **FIRST Stage** of this *Distemper*, Persons have a Smarting of Urine, with a little Swelling, Heat, & Soreness of the Parts, Dripping of Matter from the Passage, &c.

In the **2d Stage**, They have (besides these *Symptoms*) also a **RUNNING** of foul Matter, with (usually) a Cordee, Swellings in the Groins, tending to a Bubo, & Sores on the Part.

In the **3d & Last Stage**, The Blood is Infected, & the Body Breaks out in Blotches, and Spots, with Aches, Pains, &c.

The Cure of all which is as follows. A 2 of

The Cure of the FIRST Stage.

THE Symptoms of this FIRST Stage, being an *Outward* Soreness, Heat, Redness, Tingling, Itching, Twitching, Shooting, Swelling, and Inflammation of the Part:

Followed by a Heat and Smarting Pain in making Water, and an appearance of *Foul Matter* Dripping & Coming away.

The Easy removal of these perplexing Disorders is consequently the Subject of the present Question.

It has indeed been a long unhappy Custom to put Persons (even for this FIRST Stage only of the Distemper) into Courses of *Purging* Physick, to carry off the Infection.

And 'tis also true, that to perform a Cure, the Infection & Venom that has been received, MUST be taken away.

But why so much Physick, and Purging for it?

If this can be effected by Easier means, 'tis entirely unnecessary that Persons should take so much Physick as usually they do, to get Rid of only this FIRST Stage.

Which might be much easier Cured by an *Immediate* Application to the Part it self. And this, by taking away the Venom and Infection from the Part, by a particular Chymical Lotion to Cure the Part it self with, — And

Which Being only Outwardly used to the Part, Clears and Frees it of the Venereal Venom, & then Heals & Cures it much better, & a deal sooner than any Physick can do, taken in at so far a distance off from the Part, as the Mouth is.

So that by this Method, Unfortunate Persons of Either Sex have the opportunity without the Trouble of Nauseous Physick, to Cure themselves for even a Trifle of Charge, of what otherwise would Cost a tedious, expensive, & troublesome Cure, and expose their Reputation too.

And this with no more Trouble, Difficulty, or Uneasyness, than there is in applying *Fair Water* to the part.

This Method doing more in One Hour, than harrassing with Medicines does in many Days, nay sometimes Weeks.

The Efficacy of this Method visibly appears as follows.

The Patient is Privately in their Chamber to pour out into a Tea or Coffee Cup a Spoonful or two of this Lotion:

And then to HOLD THE PART in it, and to let the Fore-skin and Nut of it LIE, and SOAK some little Time in it, and to wash and cleanse it with it, according to the Directions which are Sealed up along with it.

This is not only comfortable to the Patient, but takes away the Soreness, Blisters, Wheals, and Pimples, with the Dripping of foul Matter, and Smarting of Urine.

Thus upon only ONCE using this Lotion, Persons will find a Comfortable Change, & Alteration in themselves, by being rendered surprisingly Easy: And

And after another Time or 2 Using it, the Dripping of Matter, the Smarting pain in making Water, with the Swelling; and Swelling tending to *A Cordée* cease, and the Person is rendered Easy, and Well without any Confinement, or other TELL-TALEING Circumstance.

For it's Use, being thus with the utmost Privacy, & SOON DONE, can never betray your Condition and not even to Bed-fellow, if a Person will but be true to themselves.

All which *Demonstratively* proves to the very Eye, that it performs (in this FIRST Stage of the Distemper) the part *Purging Physick*, much better than Any Medicines taken in the Mouth can possibly do. — The Reason is: Because: In this FIRST Stage, the Blood having no manner of Share yet in the Infection; What Need of Loads of *Physick*?

Whereas the *Part* it self having in this *First* Stage been as at the First, and indeed ONLY Sufferer, is by this Method of *Curing* it, much more *Immediately* freed from the Infection, than by any *Physick* taken into the Stomach, which in this First Stage has nothing at all to do with the Disease.

Just as a Cut Finger, or a Wound on an Arm or Leg, is to be COME AT and Cured much more immediately by applying Remedies to the very Part it self, than possibly can be done by any *Physick* taken into the Stomach.

Thus, What is commonly called *A Clap* or *a Gonorrhæa*, is presently, Easily, and Privately Cured for a small Expence, and without Trouble, it being SOON DONE.

This *Lotion* is Sealed up with *Directions* so Plain, that Persons may Privately & Presently Cure themselves without any Suspicion, Confinement at Home, Farther trouble, or more ado. Price 7 s. 6 d. And will be delivered by any Messenger, asking for the *Purging & Healing LOTION*. When Practitioners reason against this Method of Cure, 'tis for some other Ends on their Patients, than to consult their Healths, it being Sooner, Better, and Safer performed in this Method, than any other, viz. in the Shortest Time, WITHOUT ANY PAIN, & with the greatest Certainty, says Dr Cockburn. Of a Gon. Part 2. ch. 1. — But Practice (says Dr. Quincy) does not fall so much into this Way as it (justly) deserves, for fear of making TOO SHORT Cures. Dispens. p. 637.

BY writing by the Post to Mr. R. Bradshaw as ordered above in the Advertisement in the 2d Page.

Any one in the Country or elsewhere Far from London, may with all Ease and Privacy COME BY this Lotion.

And so Cure themselves, in any Private Family in the Country, without any manner of Suspicion, that you ail any thing, and without making your Case known to any One in the City, Town, or Family where you live. The

The Cure of the SECOND, and THIRD Stages.

THE Progress the Disease makes in its **SECOND** Stage causing That Dripping in the foregoing Stage to generate Now into a perfect *Running*, with Swellings, Pains, &c.

And also That Pain & Uneasiness in making Water, which was in the First Stage only a Heat and Smarting, to become Now in this Second Stage a perfect **SCALDING**.

The Lotion for the First Stage must be made use of all in *This*, with the Addition to it, of the taking of some proper thing to Free the Body of the Infection, that he in **THIS** Second Stage has penetrated Farther into the Body, than it did in the Former. And for which End nothing exceeds a certain Medicine called and known by the Name of *The Specifick Remedy*, Which together with the foregoing Lotion is a compleat Cure of this wretched Distemper in *This* Second Stage, without any farther Trouble, Suspicion

Confinement at Home, or other Betraying Circumstances.

And this with the greatest Ease in Taking, imaginable.

For, This Great Remedy being a peculiar Chymical Preparation, the Dose is no more than the Bigness of a Pea.

And the great Convenience of this Method of Cure is, That Persons may cure Themselves with it **PRIVATELY**, without making their Case known, or being betray'd, (unless they themselves will) to be under such Circumstances.

And for the **THIRD** and Last Stage of the Distemper, which the Blood is now tainted by it, The Patient must take a little more than for the foregoing Stage, of the *Specifick Remedy*, to clear the Blood of the Venereal Taint.

And proportionably as any Smarting of Urine, or any Running, Or Sorenesses may still remain; So the foregoing Lotion is still of Use to take these Uneasinesses away.

This Great **SPECIFICK Remedy** (which thus Cures this wretched Disease) is Sealed up with the above mentioned Lotion.

With Ample Directions in *English & French*, for the use of Sea Surgeons, Forreigners, Merchants & others Trading Abroad (being the Only Method to perform Cures without Sea, & in Forreign Climates) so Easy, and plain; and so Ordered, and Contrived for Secrecy, Commodiousness & Ease.

That Persons may Cure Themselves **PRIVATELY** without any farther Advising with, or Consulting Any one, & No BODY know any thing of the Matter, Or, that they have Ailed any thing, or been any ways ill, or out of Order.

And are thus Published, That they may be *Privately* bought and carried away in a Persons Pocket to any (even remote) place There to Cure themselves with, without suspicion of any Other

More Particulars of this Specifick Anti-Venereal Remedy.

THIS Remedy being that Great Secret Dr. Chamberlen has so much esteem'd, The Account of it is as follows.

This Remedy being (First) Published in London in the Year 1713, Numbers (especially Gentlemen) bought of it.

These Gentlemen finding themselves surprisngly Cured by it, presently recommended it to their Acquaintance under the same Unhappy Circumstances; and who experiencing the same happy Effect from it, Recommended it also to others.

This coming to the Ears of Dr. Chamberlen, moved his Curiosity to Buy the Remedy: And which he did by sending his Servant with A GUINEA for it. And having at that time Some Patients deplorable Venereal Objects, he was pleas'd to Try the Remedy upon them, and to his surprise found them cured by it, which made the Dr. Buy more of it:

This unexpected Success (on these his even POX't Patients) so surpris'd the Dr. that he writ to acquaint the Author with it.

The Author upon this waited on the Dr. who having examin'd well into the Remedy, was pleas'd to fall into the Opinion, that, What former Ages had been enquiring after, for the Cure of this Distemper, was happily Now Found out.

And therefore told the Author, that having experienced it, & the *Diuretick Anti-Venereal Elixir for Broken Constitutions*, in so many of his own Patients, with always a surprisng success as he had, he would from his own Knowledge of these two Remedies, recommend them to the World:

And which accordingly he did under his own Hand, in every ample Manner, a Copy of which any one may see in the 18th Page of the *VENEREAL—DISPENSATORY*, mentioned hereafter in the Last Page of This Scheme.

And indeed, it has been astonishing to see the First Stage of the Distemper (vulgarly called a *Slight Clap*, where Persons have not had the abovementioned *Purging Lotion*) Cured by only Once or TWICE taking of this Specifick Remedy.

The Second Stage cured by about FOUR Doses of it:

And so stubborn, and confirmed a *Pox*, that the Person has been almost Rotten, looking like Death, and scarce able to walk the Length of a Room, with Nodes on the Shins, Swains in the Joints, and Breakings out all over the Body, & even their Nose in Danger, Cured and as well upon their Legs as ever, in a manner miraculously by EIGHT Doses of it.

This Great Remedy likewise destroys *Mercury*, (being an Enemy to it) & carries it out of the Body, securing the NOSE and other Noble Parts, and thereby releives those unfortunate Persons who have fallen into bad Hands in Former Cures.

It carries off also those Swellings, which otherwise would come to a troublesome Head & Break, called Buboës; and which if once Broke, will Betray you. Of

CONSTITUTION

BESIDES the Three abovementioned Stages the Secret Disease, There is yet Another much more Unhappy State, in which a Great Part of Mankind unfortunately find themselves:——Which

A Broken, Spoiled, and Ruined Constitution & Habit of Body by Fast Living, Self-Defilements, Hard Drinking, Form Cures, Salivations, and Mercury, which afterwards ought to have been (but was not) well carried off, and therefore lies Lurking in the very Bones of the Poor Ruined Patient.

Such Persons as these are almost always Ailing, & complaining of One Uneasiness or another; As, Various Pains about the Bodies, Numbness in their Limbs, Weakness in their Backs, Ribs & Loins, Dizziness in the Head, Lowness of their Spirits, &c.

Their Urine is generally Foul, Thick & Offensive, with various of, as it were, Strings, Threads, Films, & Corruption in it; Several little imperfect sorts of Breakings-out, with Spots about the Body like the Scurvy, or Itch; Pains in their Bones like a Rheumatism

Oftentimes also attended with a Heat, Sharpness, and Uneasiness in making Water, with too frequent Provocations to it.

So that after a Cure of a Venereal Injury has been seemingly performed, there many times remains several pernicious Symptoms of the Disease, or else some Relicks of the Mercury (very often the Worse Evil of the two) which after war sooner or later make a Havock, and will shew themselves.

The General Consequence of all which, is what the World commonly calls a BROKEN CONSTITUTION, attended with Restless uneasy Nights, Various Pains about the Body, &c.

Now to Remedy these Evils, the usual Method of Cure, is Either by a Salivation, Or Diet-Drinks, Nauseous Mercurial Bolusses, or Pills, and other such Tiresome Physick.

And if No Other Means would do, these Courses of Physick must be undergone. But Another much Easier Way is now found out, viz. By one singly easy Medicine, particular Diuretick Elixir instituted to supply in a much more eminent Degree the stead of Diet-Drinks, and tedious Courses of Physick. By Carrying off by Urine the Relicks of Mercury, & Venereal Infections that Lurking in the Body, cause those Disorders abovementioned. How this is done, may be explicated by a Familiar Example. The diffused Rays of the Sun coming in at an open Window are some time, before they will warm ones Hand: But if you contract the scattered and dispersed Beams into a Point thro a Burning-Glass, your Hand will presently be hot.

Much in the same manner, *Diet-Drinks* in themselves are so very Slow in performing a Cure, that unless Persons perfectly Wash themselves with them, they prove little better than a *Chip in Pottage*, so that Persons had almost as good never take them.

Whereas the Virtues of *Anti-Venereal Diet-Drinks* being brought in this Elixir into a small Compass, and as it were Contracted and Concenter'd into a Point, it is insituted to rectifie (much more Easily then *Diet-Drinks* are Wont to do) those many Disorders in the Constitution, which by Salivations, Ill Cures, Fast Living, Hard Drinking, or Other ways it may have contracted.

How the Virtues of *Diet-Drinks*, and Tediuous Courses of Physick may be Contracted into (as it were) a Point, in some ONE Medicine, may be made clear in the manner following.

Chymistry being an Art which Extracts the very Essence and Life of things, separates by consequence their Purities from their useless Dregs, in order to the Preparation of Medicines more Grateful to the Palate by Abbridging their Dose, & more Healthful to the Body, by throwing away their Dross.

This will appear clear in an Example of *Jalap Root*, which consists of 2 Parts, to wit: A Resinous Part, wherein its Chiefest Virtue consists, and an Earthy gross part, which is of little use, except to clog and load the Stomach to little Purpose.

Now the Virtue of the Root consisting in it's Resin, 'tis unnecessary that a Person should Load, Nauseate & Clog their Stomach with 30 or 40 Grains of this Root in Substance, for the sake of about 4 or 5 Grains of its Resin contained in those 30 or 40 Grains of the Root; & which 4 or 5 Grains of its Resin, will many times have a better effect, than 30 or 40 of the Root.

'Tis therefore by the ART of Chymistry that this Resinous Part is Extracted from the other useless Gross Part which the Chymists throw away, in order to abridge and lessen the Dose, by giving to Persons only 4 or 5 Grains, instead of 30 or 40.

And 'tis This Method that is here made use of in the Preparation of this Great Elixir, in order that only a few Drops of it may be taken with a Glass of Wine, Ale, Beer, &c. instead of Nauseous Draughts of *Diet-Drinks*, or Courses of Physick.

From which fully appears the great Convenience of such a CUT and Abridgment of long tiresome Courses of Physick.

For 'tis not the Quantities of nauseous Physick that do the Work in Venereal Cures, (too much Physick weakening and breaking the Constitution many times more than the Disease.)

But 'tis happily hitting upon the Right things for the Distempers. So that 'tis a General Rule, that The Best Cures are commonly performed by the least Quantities of Physick, if the RIGHT proper Things for the Distemper be but luckily HIT upon.

This Great Constitution Elixir is sealed up with Directions in English & French. Price 2 Guineas. And is the only thing to supply the Stead of *Diet-Drinks*. B of

10 Of GLEETS, &c. in Either Sex.

BY a GLEET, or other such Weakness in either Sex, is understood a Dripping of Matter from a Human Body, proceeding from the Weakness of the Parts after Venereal Injuries, & their Cures, or Self-Defilements &c. in Men:

But commonly after more innocent Causes in Women, Such as Hard Labours, Miscarriages, Colds in Lyings-in, &c.

And whereas some have been so Nauseated with Physick, for these Infirmities, that they many times choose to undergo the worst of Consequences rather than take any more.

Therefore, For the Benefit of all Persons of either Sex, unfortunately harrass'd with a Gleet &c. a compleat Cure is here obtained by a Particular Strengthening LOTION.

Which without any thing taken at the Mouth, or any Uneasiness, Trouble, Inconvenience, or Suspicion, takes the Gleet or Weakness in Either Sex entirely away.

Strengthening the Part it self so, that no Gleet in Men, or Draining Weakness in Women, can stand against it.

This Lotion is Sealed up separate by it self with Directions. Pr. 7 s. 6 d. And will be delivered to any Messenger by the Name of The Strengthening Lotion for Weaknesses, &c.

And by which, the Remoest Person may privately Cure themselves, without taking any thing in at the Mouth, and without the Knowledge, or Suspicion of any one.

But where a Gleet or other Draining Weakness has been of Long Date, and so may prove more obstinate in its Cure

Then, in such Cases, along with this Lotion, A particular Strengthening Elixir (to be taken only with a Glass of Wine) should be taken also, in order to perform the Cure of the most obstinate Gleet as soon again as otherwise.

This Elixir being the Particular Strengtheners of those Parts where these Infirmities are seated, whether from Self-Defilements, or Hard Labours, Overstrainings, Wrenches, Hurts, Miscarriages, or Secret Injuries & their Cures, in either Sex.

As also for Pains, & Weaknesses in the Back, Reins, or Loins, & to take away Stoppage of Urine, by carrying off Slime, Gravel, Sand, and other Obstructions in the Vessels, and Passages.

This Strengthening Elixir is Sealed up along with the just now mentioned Strengthening Lotion with Ample Directions in English & French. Price both together A Guinea. Being a compleat Cure of the most obstinate GLEET:

And are the proper Things for Persons drained & exhausted by the Unhappy Practice of Self-Defilement, and cause Conception after supposed incurable Barrenness.

See more of all this in the GLEET-DISPENSATOR mentioned in the last Page of this Scheme.

Of the GOUT and Rheumatism.

11

THE GOUT absolutely cured by a particular *Specific* Secret to be taken only with a Glass of Wine.

The Efficacy of this Medicine can be attested by a great many who before the Trial of it, would not believe it possible for a Remedy to give Relief as they found it to do.

Those Degrees & Fits of the GOUT which before had baffled, and eluded many other Medicines having been cured by this, Ease obtained in most racking Pains, The Fit taken off, and Health surprisngly placed in its stead :

And this without any Disturbance or Uneasiness to Nature, and so effectually Secured the Stomach and other noble Parts from the Gout, that those who were *Cripples* before, and by perceiving their Stomach to be attacked, began to expect nothing but Death, by this Remedy have thrown away their Crutches, and walked the Streets without even a Cane, to their own and others Amazement, as Persons may be fully satisfied of, from the following authentick Instances of Cures.

Mr. Dewy at Greenwich afflicted with the GOUT 9 Years.

Mr. Needham of Hilston in Monmouthshire, near 30 Years.

Mr. Smither Undertaker in Barbican, 12 Years.

Mr. Wiggins in Osier-Lane near West Smithfield 9 Years.

Mr. La Force in Rose-street Covent Garden almost 12 Years.

Mr. Davis in Black-Fryars with a knotted Gout 5 Years.

Mrs. Malkin in Newgate-Market (with Chalk-Stones) 14 Years.

With many others too long to insert here Cured by it.

So that not only common GOUTS and Rheumatism have been thus cured, but even CHALK-STONES have, Some come away (*the Skin gently opening and letting them out*) as in Coll. Fade's Lady at Clapham, afflicted with a Knotty Chalky GOUT near 20 Years, upon taking of this Remedy, after many other Means used : Others dispersed and vanished away as in the Cure of Mrs. Malkin abovementioned.

Hence it plainly appears that the GOUT is a curable Distemper, if the Right proper Thing for it be but HIT upon.

And 'tis for want of this, that it lies under the common Reproach of being Incurable. Whereas if Gentlemen and others would but try this Method of Cure, they would soon experience the Effect of it, as Numbers have done, who before despaired of obtaining a Cure.

This Gout-Tincture is sealed with This Seal of a Person in a Fit of the Gout, with Directions in English and French, Pr. A Guinea.

See more of all this (as also of the famous Gout-Stone, to be Carried only in a Person's Pocket for the Gout) in the GOUT-DISSENTORY, mentioned in the Last Page of this Scheme.

ABOUT the Year of the World 2009, just after *Judah* was sold by *Judah* and the rest of his Brethren into *Chanaan*, *Judah* married a Wife who bore him two Sons, *ER* & *ONAN*.

ER he married to a Wife whose Name was *Thamar*. But *ER* defiling his Nuptial Bed by Frustrating the End of Marriage, was punished with immediate Death.

Now amongst the *Jews* it was a Law, that if a Brother died without Children, the next Brother was bound to marry the Widdow, to raise up Children to his Brother's Name, and therefore *Judah* obliged his second Son *ONAN* to take his deceased Brother's Widdow *Thamar* to Wife. *Genesis* 38.

But *ONAN* knowing that the Children (if he should have any) were not to be deem'd HIS, but his Brother's, frustrated also the End of Marriage, by Defiling himself.
